

BENTLEY ARNAGE T MULLINER

Year : 2008

£0.00

Finished in stunning Tungsten Metallic with contrasting Beluga Hide Interior.

This stunning motor car is one of the last of the face lift model year Arnage T series and has covered just 18,095 miles from new. It has been beautifully looked after and cared for and comes with a superb comprehensive service portfolio.

In brief it has the factory fitted Flying " B " Radiator Mascot, Sat Nav with remote control, a superb in car entertainment system with a 6 disc CD auto changer, Arnage T alloy wheels, electrically adjustable and heated front and rear seats with 4 memory function for both driver and front passenger, cruise control, front and rear parking aids and dual zone ATC air conditioning.

The interior is in immaculate condition and the quilted stitched diamond front and rear seat facings are no exception as are the front and rear carpets. The car is beautifully finished with full Mulliner refinery that subtly adorns the exterior and interior of the car including the characteristic front wing vents, interior chrome plated door tread plates and drilled alloy foot pedals.

We would highly recommend a full inspection and test drive for you to fully appreciate this most stunning motor vehicle.
