

BENTLEY TURBO RL (LWB)

Year : 1997

£0.00

Finished in Peacock Blue with Parchment Hide interior.

This stunning motor car has just covered a mere 28,592 miles from new. Having only had two custodians since it was first registered in June 1997 it is clear to see how fastidious they have been in maintaining and caring for this outstanding example.

Accompanying the car is a comprehensive service portfolio with invoices and receipts documenting the maintenance history in very thorough detail.

The exterior is in exemplary condition as are all the interior Burr Walnut fixtures and fittings and carpets, adorning the back of both front seats are two immaculately kept fold down picnic tables which is all a testament to the way in which the car has been meticulously maintained and cared for.
